Notice is hereby given that a public hearing will be held at the regular meeting of the Board of Directors ("Board") for the San Antonio Basin Groundwater Sustainability Agency ("SABGSA") at 6:00 pm, or as soon after as may be heard, on Tuesday, January 21, 2025 at the Los Alamos Community Services District's office at 82 Joseph St, Los Alamos, CA 93440 on the following matter:

Adoption of a Well Metering and Groundwater Extraction Reporting Ordinance

The SABGSA Board shall consider adoption of a proposed Ordinance to require well owners within the San Antonio Creek Valley Groundwater Basin (Basin No. 3-014) to install a flow meter with a visual, volume-recording totalizer on their wells, submit documentation of compliance by April 1, 2026, and report monthly groundwater extraction readings to the SABGSA on a twice-a-year basis, through a form provided by the SABGSA. De minimis extractors who extract two acre-feet or less per year solely for domestic purposes would be exempt. The proposed Well Metering and Groundwater Extraction Reporting Ordinance also may establish other related SABGSA rules and regulations necessary to implement the Well Metering and Groundwater Extraction Reporting Ordinance.

All interested persons are invited to be present and be heard. Written communications and requests for special assistance in compliance with the Americans with Disabilities Act may be directed to the San Antonio Basin Groundwater Sustainability Agency at: admin@sanantoniobasingsa.org.

The proposed Well Metering and Groundwater Extraction Reporting Ordinance is on file with the SABGSA Executive Director and open for public inspection at <https://sanantoniobasingsa.org/metering-program/>.
